6. SCHEDULED ITEMS

- 6.1** PUBLIC HEARING - 38 DEGREES NORTH PHASE 2 - PRELIMINARY DESIGN REVIEW - 2660 PETALUMA HILL RD - FILE NO. PRJ19-017
- BACKGROUND: The project consists of the development of 172 residential apartments, a 2.54-acre open space preserve, and reservation of a 1.04-acre site for the future development of an approximately 21,000-square-foot community shopping center on an approximately 10.9-acre parcel. The residential apartments would be contained within eight three-story buildings. Access would be provided off Petaluma Hill Road, Franz Kafka Avenue, and Farmers Lane Extension. Drive aisles would provide internal access to carports, garages and surface parking. Onsite amenities would include a club house, pool and spa area, and pedestrian pathways. The 2.54-acre open space preserve, located in the center portion of the site, contains seasonal wetlands and an ephemeral creek, and separates the site into north and south development areas. The Design Review Board will consider adopting a Mitigated Negative Declaration and the Major Design Review of the proposed project and associated parking reduction request.

City Planner Adam Ross gave the staff presentation and responded to Board Members' questions.

Chair Kincaid opened public comments at 8:54 pm.

Tracy Good - Expressed concerns regarding narrow streets, street

parking, and the effect on future evacuations. Three exit points would be better than two. There is no park in the project. She asked who takes care of landscaping along Fresno Avenue.

Chair Kincaid closed public comments at 8:58 pm.

Architect Doug Hilberman gave a presentation.

Civil Engineer Andy Bordes gave a presentation.

Landscape Architect Michael Cook gave a presentation.

Applicant Matthew Cappiello gave a presentation.

Board Comments:

The in-out rhythm works well, with options A-1/2, B1/21, C1/2 working best. Reconsider the Option 3's. It is critical that garages are truly used as garages. Glass at top of garage doors helps ensure that garages are used as garages. The rhythm makes the multifamily feel like a single family neighborhood, and allows for a front yard feel. There is concern re: open space component; there is an adjacent open space; look for opportunities for bulb-outs at some intersections to shorten pedestrian crossing time and at the far northern cross-street; provide signage or ground markings.

Consider, for ideas, looking at the templates used by the County for rebuilds for driveways and front yards. Clarify the privacy fence vs. perimeter fence - L0 and L1 is not clear whether the fence is 8ft or 6 ft. Concern regarding trees in bio-retention or bio-retention mix, which is difficult for tree survival.

Having a rear yard creates a stabilizing effect. The tree selection is good. Series 1 and 2 are successful. The 2-story units are all dark; consider off-white instead of olive. The 2 story units could have porches; explore carpentry and introduce colors at the porch level. Possibly retire the C-plans. Create differentiation of homeownership, with colors or porch types. The back yards are appreciated. Explore Asphalt shingle colors other than red, which is a not very versatile color.
