March 18, 2021

SUBJECT

Bicycle & Pedestrian Master Plan Update
2018 - Annual Report 2020

ISSUE

The Board will receive an update on progress since the adoption of Bicycle & Pedestrian Master Plan Update 2018.

STAFF PRESENTER

Bjorn Gripenburg, Active Transportation
Planner

RECOMMENDATION

For information only. No action is required.

BACKGROUND

Adopted by City Council in March 2019, the Bicycle and Pedestrian Master Plan Update 2018 (BPMPU 2018) established a vision and strategies toward making walking and bicycling in Santa Rosa comfortable, convenient, and common for people of all ages and abilities.

The plan includes infrastructure projects that are needed to improve and complete the City's bicycle and pedestrian networks, as well as several education, encouragement, enforcement, and evaluation programs and policies. The plan recognizes that limited funding and resources will require phased implementation over several years.

Policy #18 (Evaluation) calls on staff to report annually to the Bicycle and Pedestrian Advisory Board on the implementation of the projects, policies, and programs identified in BPMPU 2018. This is staff's first report on plan progress since adoption in 2019.
