

HARVEST PARK NEIGHBORS

AGAINST COMMERCIAL MEDICAL CANNABIS CULTIVATION

AND PROCESSING PLANT

KNOWN AS 800 YOLANDA LLC

We call on the City of Santa Rosa City Council and Planning Department to protect our residential neighborhood by not allowing the construction of the proposed 3-story medical cannabis cultivation and processing facility (File NO. DR17-018) located at 800 Yolanda LLC.

We are against commercial scale marijuana growing in our neighborhood and around our children because it can lead to:

Increased Crime and Violence

Fenced and Padlocked Properties That Are Unsightly and Will Be a Blight on Our Beautiful Sonoma County Neighborhood.

Surveillance and security guards that violate our privacy

Fire hazards due to high electricity use

Groundwater contamination

Toxins and pollutants released into the air

Odor

Property value depreciation of our homes

And above all the loss of neighborhood tranquility (due to fear) and the fear for the safety of our children

We do not want you in or around our peaceful idyllic neighborhood where we often gather outside for neighborhood events, hold block parties and let our children play in the streets without fear or worry.

Sincerely the Neighbors of Harvest Park,
