RECOMMENDATION

This item is for Board discussion. No action is required.

BACKGROUND

Action 16.1 in the City's Bicycle & Pedestrian Master Plan Update 2018 calls on the City to provide current and easily accessible information about bicycling in Santa Rosa through the distribution of online bicycle maps, maintaining up-to-date City webpages, and providing opportunities for continued public feedback.

After reviewing bicycle/pedestrian webpages on srcity.org and other city sites, staff developed the attached draft outline for BPAB review and feedback.
