PROJECT PLANNER RECOMMENDATION

Susie Murray Approval

Agenda Item #9.1

For Planning Commission Meeting of September 23, 2021

CITY OF SANTA ROSA PLANNING COMMISSION

TO: CHAIR WEEKS AND MEMBERS OF THE COMMISSION

FROM: SUSIE MURRAY, SENIOR PLANNER

PLANNING AND ECONOMIC DEVELOPMENT

SUBJECT: ERUDITE DISPENSARY

AGENDA ACTION: RESOLUTION

#### RECOMMENDATION

It is recommended by the Planning and Economic Development Department that the Planning Commission, by resolution, approve Erudite Dispensary, a Cannabis Retail facility providing both medical and adult use products, with delivery service, at 3059 Coffey Lane.

#### PROJECT DESCRIPTION

Erudite Dispensary (Project) is a proposal to operate an approximately 2,330-square foot Cannabis Retail facility, providing both medical and adult use products, with delivery service from an existing commercial building. No onsite consumption area is proposed. The Project site is located in Santa Rosa's northwest quadrant, at 3059 Coffey Lane. The Planning Commission is being asked to act on a Conditional Use Permit (CUP).

## ERUDITE DISPENSARY PAGE 3 OF 10

#### **BACKGROUND**

#### 1. <u>Surrounding Land Uses</u>

North: Light Industry; currently occupied with commercial uses.

South: Light Industry; currently occupied with commercial uses.

East: Low Density Residential; currently occupied with residential uses.

West: Light Industry; currently occupied with commercial uses.

#### 2. Existing Land Use – Project Site

The site is currently developed with a vacant commercial building.

#### 3. Project History

On June 3, 2019, the Project application was submitted to Planning and Economic Development requesting the approval of a Conditional Use Permit for a dispensary providing delivery service.

On October 30, 2019, the application was deemed complete.

On January 15, 2020, a Neighborhood Meeting was held to introduce the Project to neighbors.

On April 12, 2021, revised plans were submitted.

On August 12, 2021, the Planning Commission held a duly noticed public hearing, at which time it approved the applicant's request for continuance to September 9, 2021, a date certain, to allow additional review of the traffic conditions.

On September 9, 2021, the item was continued to September 23, 2021, due to a clerical error. The project was re-noticed for a new public hearing.

#### PRIOR CITY COUNCIL REVIEW

Not applicable.

#### **ANALYSIS**

#### General Plan

The subject site is located in an area designated as Light Industry on the General

<u>Plan Land Use Diagram</u>, where the implementing zoning district is Light Industry (IL). The Cannabis Retail use is permitted through the approval of a Conditional Use Permit pursuant to Zoning Code Table 2-10 (allowable uses) and Section 20-52.050 (Conditional Use Permit) in the IL zoning district.

The project implements several goals and policies throughout the <u>General Plan</u>, examples of which are shown below:

- It provides a new use in the area, Cannabis Retail, that will satisfy the needs of people in nearby neighborhoods (Land Use and Livability);
- It maintains an adequate supply of employment centers throughout the City to ensure continued economic vitality (Land Use and Livability);
- It places a new retail use within walking and cycling distance of residential uses, therefore reducing the traffic volumes in residential neighborhoods (Transportation); and
- It places a new retail use along the City's regional/arterial corridors (Economic Vitality).

#### 1. Other Applicable Plans

Not applicable.

#### 2. Zoning Code

The Project site is within the General Commercial (IG) zoning district, which is not consistent with the General Plan land use designation of Light Industry. The proposed use, however, is consistent with both.

Surrounding properties are with the following zoning districts:

North: General Industrial

South: General Industrial

East: Residential Planned Development (PD 0158)

West: General Industrial

Applicable sections of the Zoning Code include:

<u>Chapter 20-46</u> provides regulations for all cannabis-related uses. Section 20-46.050 provides general operating requirements. As conditioned, the proposed dispensary shall remain in compliance with these regulations at all times,

## ERUDITE DISPENSARY PAGE 5 OF 10

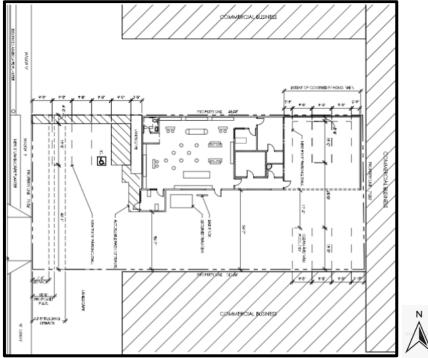

including maintaining a security system with surveillance videos in compliance with State and local regulations and containing cannabis odors within the building.

Section 20-46.080 provides regulations specific to dispensaries and delivery service. The Project application materials, attached, reflect the applicant's clear understanding of the regulations. To highlight items that generally come under question:

- Hours of Operation: Monday through Saturday, 9:00 a.m. to 9:00 p.m., and Sunday from 9:00 a.m. to 8:00 p.m.
- Delivery service will be conducted during hours of operation. Driver loads will not exceed \$5,000; routes will be scheduled exclusively for deliveries and will not to exceed two-hours from start to finish; and inventory will be kept in secured lockboxes.
- The site is not within an area of overconcentration.
- The nearest school, North Valley School, is located more than 1,000 feet away as the crow flies.
- Security will be done in compliance with both City and State regulations.
- There is no onsite consumption proposed as part of the Project.
- The applicant has provided an Odor Mitigation Plan stamped by a licensed engineer.
- A Traffic Impact Study, prepared by Abrams Associates Traffic Engineers, dated September 2, 2021, attached, concluded that, "Based on the project's design and a detailed analysis conducted according to the required guidelines there would be no significant transportation impacts according to established traffic engineering standards and no off-site traffic or transportation mitigations would be required.

<u>Chapter 20-36</u> provides parking requirements. Cannabis Retail facilities are required to provide one space for every 250 square feet, as are most commercial office uses, which in this case would be 10 spaces. The Project complies with the Zoning Code with ten parking spaces shown on the site plan.

Source: Applicant

Pursuant to <u>Section 20-52.050</u>, the Planning Commission must make the six findings shown below prior to approving a CUP, as shown on the draft resolution:

- The proposed use is allowed within the applicable zoning district and complies with all other applicable provisions of this Zoning Code and the City Code.
- The proposed use is consistent with the General Plan and any applicable specific plan.
- The design, location, size, and operating characteristics of the proposed activity would be compatible with the existing and future land uses in the vicinity.
- The site is physically suitable for the type, density, and intensity of use being proposed, including access, utilities, and the absence of physical constraints.
- Granting the permit would not constitute a nuisance or be injurious or detrimental to the public interest, health, safety, convenience, or welfare, or materially injurious to persons, property, or improvements in the vicinity and zoning district in which the property is located.

#### ERUDITE DISPENSARY PAGE 7 OF 10

 The proposed project has been reviewed in compliance with the California Environmental Quality Act (CEQA).

#### 3. Design Guidelines

The proposed changes to the exterior of the building are minimal including partial removal of a wall and roll-up doors on the north elevation where the changes would not be readily visible from the public right-of-way, painting and landscaping, and will likely be accomplished with an over-the-counter Design Review pursuant to Zoning Code Table 5-2. This determination will be made when the applicant finalizes the exterior plans are submitted for review.

#### 4. Neighborhood Comments

A Neighborhood Meeting was held on January 15, 2020. No members of the public attended.

Two public comments (one email, one phone call) have been received expressing concerns about increases in traffic and overconcentration of cannabis retail facilities:

- Traffic As discussed in the Zoning section of this report, the proposed dispensary will not result in significant impacts. The report was reviewed by Traffic Engineering, and no addition requirements were placed on the Project.
- Overconcentration of dispensaries Zoning Code Section 20-46.080 prohibits Cannabis Retail uses from being within 600 feet of one and other. Staff review has concluded that no other dispensaries are located within 600 feet of the Project site.

#### Public Improvements/On-Site Improvements

A comprehensive list of improvements is provided on Engineering Development Services Exhibit A, prepared by Carol Dugas, dated May 28, 2021, and is attached to the draft resolution for the Project.

#### FISCAL IMPACT

Approval of the Project will not have an effect on the General Fund.

#### **ENVIRONMENTAL IMPACT**

The Project has been found in compliance with the California Environmental Quality Act (CEQA):

#### ERUDITE DISPENSARY PAGE 8 OF 10

Pursuant to CEQA Guidelines Section 15301, the Project is categorically exempt because it involves minor modifications to an existing structure.

Pursuant to CEQA Guidelines Section 15303, the Project is categorically exempt because it involves the conversion of an existing structure from one use to a another where only minor modifications to the structure will be made.

Pursuant to CEQA Guidelines Section 15332, the Project is categorically exempt as infill development. The use is consistent with the General Plan land use designation of Light Industry and zoning designation of General Industrial; it occurs on property that is less than five acres within Santa Rosa City limits; it is completely developed with no potential habitat for endangered, rare or threatened species; the site is currently served by all utilities and services; and re-tenanting the space will not result in any significant effects pertaining to noise, air quality, water quality or traffic.

Pursuant to section 15183, the Project qualifies for streamlined review because it is consistent with the General Plan for which an Environmental Impact Report (EIR) was certified by Council in 2009. In December 2017, Council enacted comprehensive regulations for cannabis. Analysis concluded that cannabis-related uses were similar in terms of environmental impacts to other allowable uses in the General Industrial zoning district.

No further environmental review is necessary for the Project as analysis has confirmed that there are no new environmental effects, or environmental effects of greater severity, peculiar to the parcel or the project that were not analyzed and addressed in a prior EIR.

No exceptions to the exemptions apply and there is no reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances. (CEQA Guidelines section 15300.2).

#### BOARD/COMMISSION/COMMITTEE REVIEW AND RECOMMENDATIONS

Not applicable.

#### **NOTIFICATION**

A Notice of Neighborhood Meeting was mailed in October 2019.

Pursuant to Zoning Code <u>Section 20-50.050</u>, a Notice of Application shall be mailed to property owners and occupants of properties located within 600 feet from the Project site within 45 days of application submittal. This detail was overlooked when the application was submitted. Pursuant to Zoning Code <u>Section 20-66.020</u>, a defect in the noticing procedure shall not affect the authority of the Planning Commission to take action on the item.

#### ERUDITE DISPENSARY **PAGE 9 OF 10**

In preparation for the Planning Commission meeting, all noticing was done in compliance with Zoning Code Chapter 20-66, including a mailed Notice of Public Hearing to owners and occupants within 600 feet of the Project site; a Notice of Public Hearing published in the Press Democrat; and a public hearing sign posted onsite.

Due to a clerical error in the agenda prepared for the Planning Commission meeting of September 9, 2021, the project was continued to September 23, 2021, and new notices prepared. Pursuant to Zoning Code Chapter 20-66, required noticing shall occur ten days prior to a scheduled public hearing, in this case by September 13, 2021. A Notice of Public Hearing was mailed to owners and occupants within 600 feet of the Project site and a Notice of Public Hearing published in the Press Democrat in compliance with that requirement. The onsite sign, however, was not posted until September 16, 2021, three days late. Pursuant to Zoning Code Section 20-66.020(A)(3), a defect (failure) in the notice procedure shall not affect the jurisdiction or authority of a review authority to take action on a matter. The Planning Commission may act on the requested entitlement if is so chooses.

#### **ISSUES**

During staff review, two issues were addressed, including:

- Adequate onsite parking and general site plan configuration The site plan was modified to include adequate parking and emergency access.
- Additional traffic analysis As discussed in the Zoning Code section of this report, a Traffic Impact Study was completed for the Project. The Study concluded there would be no significant impacts as a result of the proposed dispensary. Traffic Engineering has reviewed the report and no additional conditions were required.

There are no unresolved issues.
