**13. DIRECTORS REPORTS**

Director Burke reported: The Geysers system is back to operating at a 5 pump (full capacity) flow rate of approximately 18 MGD in order to lower recycled water storage levels in preparation for winter/wet weather flows to Laguna Treatment Plant.

Laura Utter's started with the City of Santa Rosa Water Department May 8, 2007 as a Wastewater Operator Trainee. As of November 2, 2023, she not only will be celebrating 16 years of service, she will be retiring as a Wastewater Operator II. Laura is always very helpful and professional, maintains a calm demeanor, and stays well focused under duress just like she did during the emergency response when Dan Silveira fell. Laura is always very tactful and clear when new operators need a boost during training, and is supportive of, and very kind to, the operators who are less experienced and maintains a good attention to detail when helping others learn the ropes.

Former board member Chris Grabill has been reappointed to the Board of Public Utilities filling the current vacancy. We anticipate his swearing in will take place at the next regularly scheduled meeting.

#### **14. ADJOURNMENT OF MEETING**

Chair Galvin adjourned the meeting at 2:42 p.m. in honor of Laura Utter's retirement. The next Board of Public Utilities meeting is scheduled for November 16, 2023.

**Approved on: November 16, 2023**
