7. REPORT ITEMS

7.1 REPORT - CONTINGENCY INCREASE FOR CONTRACT NO. C02105 - LAGUNA TREATMENT PLANT CHILLERS AND CLIMATE CONTROL UPGRADES AT ADMINISTRATION AND ANNEX BUILDING

BACKGROUND: A 2016 study by Costa Engineers, Inc. identified that the chillers and boilers located at the LTP Administration and Annex Buildings had reached the end of their effective service life. The Laguna Treatment Plant Chillers and Climate Control Upgrades at Administration and Annex Building project (Project) consists of replacing two 50-ton chillers and two condensing boilers at the Administration (Admin) building, and one 15-ton chiller at the Annex building. The Project also includes upgrades to the existing climate control system and programmable logic controller (PLC) network associated with the new chiller and boiler equipment. The chillers and boilers have been installed and are currently operating in manual mode. The remaining work for the Project consists of automation through PLC integration.

RECOMMENDATION: It is recommended by the Transportation and Public Works Department and the Water Department that the Board of Public Utilities, by motion, pursuant to Council Policy No. 100-07 approve a 5% contingency increase of \$43,660.80 for Contract No. C02105 - Laguna Treatment Plant Chillers and Climate Control Upgrades at Administration and Annex Building, for a total amount of \$1,178,841.60.

8. PUBLIC HEARING

8.1 PUBLIC HEARING - ADOPTING NEW MISCELLANEOUS FEES AND INCREASING CERTAIN MISCELLANEOUS FEES (CONTINUED TO THE DECEMBER 15, 2022 REGULAR MEETING)

BACKGROUND: Santa Rosa Water miscellaneous fees and charges reimburse the department for specific services and includes charges typically based on time and materials or other methodologies that help define the cost of providing the specific services for various services provided by City staff. These charges are collected from the customers who receive the service so that the costs for specific services are not spread to the entire ratepayer base.

Miscellaneous fees and charges were last updated in 2019. If the Board of Public Utilities adopts these fees at the Public Meeting on November 17, 2022, the changes to the miscellaneous fees will take effect 60 days after adoption, on January 15, 2023.

RECOMMENDATION: It is recommended by the Budget Review Subcommittee and the Water Department that the Board of Public Utilities, by resolution, adopt new Water Department miscellaneous fees and charges, and increase certain miscellaneous fees.

This item was continued to the December 15, 2022 regular meeting.
