Legislation Details

File #: 22-0918 **Version:** 1 **Name:** High Density Multi Family Residential Incentive
Type: CC- Report **Status:** Agenda Ready
File created: 11/17/2022 **In control:** City Council
On agenda: 12/13/2022 **Final action:**
Title: REPORT - HIGH-DENSITY MULTI-FAMILY RESIDENTIAL INCENTIVE PROGRAM

BACKGROUND: The High-Density Multi-Family Residential Incentive Program (Incentive Program) encourages housing development and increased density in downtown Santa Rosa through the reduction/deferral of the City development impact fees. The Incentive Program supports City Council goals to foster a vibrant downtown and meet housing needs for all. The incentive program was originally enacted in September 2018 for a limited term of five years. While the resolutions do not have an expiration date, there is an eligibility requirement for a qualifying project to “break ground by August 31, 2023”. Breaking ground is defined as securing a foundation permit. Given the delays caused by emergency responses in recent years on downtown housing investments and construction, the Council will consider extending the Incentive Program.

RECOMMENDATION: It is recommended by the Planning and Economic Development Department that Council, by three separate resolutions, (1) rescind Resolution 2018-169 and establish payment options for water and wastewater demand fees and amend the eligibility criteria for the high density multi-family residential incentive program, (2) rescind Resolution No. 2019-067 and set forth a revised schedule of park development impact fees and amend the eligibility criteria for the high density multi-family incentive program and (3) rescind Resolution No. 2019-066 and set forth a revised schedule of capital facilities fees and amend the eligibility criteria for the high density multi-family residential incentive program to further support housing development and increased density in downtown Santa Rosa.

Sponsors: Planning and Economic Development
