Type: CC- Study Session **Status:** Agenda Ready
File created: 5/11/2021 **In control:** City Council
On agenda: 6/8/2021 **Final action:** 6/8/2021
Title: 2021 WATER AND WASTEWATER DEMAND FEE UPDATE STUDY SESSION

Water and wastewater demand fees, one-time fees charged for new development, are updated periodically to adjust the fees based on current system valuation and customer usage. On August 26, 2014 the 2014 Water and Wastewater Demand Fee Study and the current demand fee schedule were adopted by Council.

Santa Rosa Water's consultant, The Reed Group, Inc., performed a detailed analysis to develop a new fee schedule and update the Water and Wastewater Demand Fee.

The proposed 2021 demand fee update will increase the demand fee per one thousand gallons of water and wastewater. However residential categories, based on Santa Rosa customer usage, have reduced resulting in the combined 2021 water and wastewater fees being less than the current combined demand fees.

The Council may receive information, ask questions, discuss and provide feedback to staff regarding the 2021 Water and Wastewater Demand Fee Study Update.
