Legislation Details

File #: 18-0174 **Version:** 1 **Name:** Small Cell Update to Council
Type: CC- Study Session **Status:** Agenda Ready
File created: 2/22/2018 **In control:** City Council
On agenda: 3/6/2018 **Final action:** 3/6/2018
Title: SMALL CELL CELLULAR NETWORK EXPANSION

Small cells are used to increase cellular capacity and improve cellular network performance, particularly in urban areas. Small cells are complementary to more traditional macrocell sites, enabling carriers to fill in small gaps and transmit more data in areas where towers may not be sufficient. The macrocells provide the umbrella network, and the small cells are underneath the umbrella network to provide the capacity needed.

Staff will update council on the status of small cell deployments in the City of Santa Rosa.
