Title:	CWI	CWEA LARGE COLLECTION SYSTEM OF THE YEAR						
	Mon Rosa com ager	California Water Environment Association (CWEA) Redwood Empire Section President, Rodrigo Montanez, will present the Large Collection System of the Year award to the Board, recognizing Santa Rosa Water's Operations team and the City's outstanding maintenance programs, regulatory compliance, and safety and training procedures. The Large Collection System Award is awarded to agencies with over 500 miles of sewer main. With nearly 590 miles of sewer pipe, Santa Rosa Water just qualified as "large"; competing with much larger agencies, such as last year's winner, LA Sanitation, with a system of over 6,000 miles of pipe. In April, Santa Rosa Water's dynamic and dedicated staff that made this prestigious recognition possible were recognized at CWEA's annual conference and presented the award.
