File created:	10/9/2019	In control:		In control:	Contract Review Subcommittee
On agenda:	10/15/2019	Final action:		Final action:	
Title:	TEMPORARY SEWER FLOW MONITORING, SEWER INSPECTION AND CONDITION ASSESSMENT, SANITARY SEWER SYSTEM MASTER PLAN UPDATE, AND ONGOING SEWER SYSTEM MODELING				
	This project will provide the necessary data collection, hydraulic model development, and CIP project prioritization for preparation of the 2020 Sewer Master Plan Update. In addition, sewer inspection and condition assessment of large diameter sewer pipes will support fulfillment of the City's Settlement Agreement with California River Watch which outlines required timeframes for inspection of the City's sewer system.
