<b>Title:</b>	REPORT - PROPRIETARY SPECIFICATION FOR ELECTRICAL AND MECHANICAL EQUIPMENT AT VARIOUS WATER DEPARTMENT FACILITIES				
	<p>BACKGROUND: There is a need to replace various electrical and mechanical equipment at Water Department facilities located throughout the City of Santa Rosa. Improvements to replace this equipment will be executed under three public works contracts: C01994 - Pump Station 15 Upgrades, C02201 - Skyfarm 'A' and Hansford Court Lift Station Reconstruction, and C02208 - Fire-related Repairs of Utility Stations.</p> <p>To match the existing equipment at Water Department facilities, it is necessary to specify proprietary equipment. Approving such a proprietary specification will maintain reliability and uniform compatibility with existing equipment and minimize operational impacts.</p> <p>RECOMMENDATION: It is recommended by the Transportation and Public Works Department and the Water Department that the Board of Public Utilities, by resolution, approve a proprietary specification for electrical and mechanical equipment at various Water Department facilities for three CIP projects: C01994 - Pump Station 15 Upgrades, C02201 - Skyfarm 'A' and Hansford Court Lift Station Reconstruction, and C02208 - Fire-related Repairs of Utility Stations.</p>
