<b>Title:</b>	ENGINEERING RESOURCES DIVISION OVERVIEW				

The Engineering Resources Division provides planning, engineering and information technology support in order to enrich the quality of life to our community. We do this by maintaining and renewing the vital Water infrastructure through utilization of asset management principles, development of the Capital Improvement Program and support of private development with customer service, plan reviews and inspections. The presentation will focus on an overview of the Division functions and highlight ongoing projects and services. The Board may discuss this item and give direction to staff.

**Sponsors:** Board of Public Utilities
