File #:	22-023CAS	Version:	1	Name:	UPCOMING CODE ADOPTIONS - ALL-ELECTRIC ONLY REQUIREMENTS
Type:	CAS- Agenda Item	Status:			Agenda Ready
File created:	9/29/2022	In control:			Climate Action Subcommittee
On agenda:	10/12/2022	Final action:			
Title:	UPCOMING CODE ADOPTIONS - ALL-ELECTRIC ONLY REQUIREMENTS AND PROPOSALS				

Staff will provide an update on the 2019 City Council adopted All-Electric Only Ordinance. The requirement applies to all new Low-Rise Residential construction (3-stories or less). Council adopted a stand-alone ordinance based in the California Energy Code which required the execution of a cost-effectiveness study. The California Energy Commission has determined that Reach Code adoptions for decarbonization do not require a cost-effectiveness study for 2022 codes provided the adoption resides within the California Green Building Standards Code. For 2023; it is proposed to adopt the All -Electric Only requirement for new Low-Rise Residential construction by amending the 2022 California Green Building Standards Code. The Subcommittee may discuss this item and provide direction to staff.
