This motion will award a contract to Ghilotti Bros., Inc. of San Rafael, California, approve a 15% contract contingency, and authorize a total contract amount of \$1,206,160 to rehabilitate the existing 500-foot concrete roadbed in the Santa Rosa Transit Mall to address service disruptions, prevent operational safety issues and pedestrian hazards, resulting from failing pavement that has exceeded its useful life.

BACKGROUND

This project will rehabilitate the existing 500-foot concrete roadbed in the Santa Rosa Transit Mall to address service disruptions, operational safety issues, and pedestrian hazards resulting from failing pavement that has exceeded its useful life. The project will include constructing a new 10-inch-thick concrete roadway, installing electrical conduit for future pedestrian flashing signals, replacing failing curb and gutter sections, upgrading two curb ramps to directional ramps, and updating striping to deter non-transit vehicles from entering the Transit Mall.

A temporary Transit Mall will be setup on First Street between Santa Rosa Avenue and D Street to provide continued service to the public during construction of the project.
