Dear Santa Rosa City Council,

I am Tyrannosaurus Davis, otherwise known as King Terry the Terrible, The Best Programmer in the Whole Fucking World, and Da Tenacious D. I would like to comment that I believe that you should all jump in front of moving traffic.

This would help cut down daily worldwide carbon emissions by 0.00000000000000000002% per individual. It is important to create a Green and Clean future for our wonderful city of Santa Rosa, and by doing this, you set a precedent that shows that you are READY to help the world, bit by bit.

Kill yourself,
Terrence Andrew "Terry" Davis
The Best Programmer in the Whole Fucking World
