Subject: [EXTERNAL] Veteran's project

Citizens of West Hearn do not want the applicant to have any extensions. This project is in direct violation to West Hearn Avenue zoning of rural heritage. a zoning title given to us in good faith by the city council. It was a promise made to the citizens of West Hearn Avenue that the city council would do everything in their power to keep our community rural. With the exception of Mayor Rogers and council member Eddie Alvarez, the city council has zero integrity. I suggest you change that by voting no to any extensions thank you.

I own a townhouse at 2852 Pearblossum Drive. I support the Community Housing Sonoma County's request for a one-year Time Extension for the Hearn Verteran's Village Tentative Map. This is an important project and deserves the support of the City of Santa Rosa and the surrounding neighborhood.

Subject: [EXTERNAL] Fw: My submission to the City Planning Commission regarding Hearn Veterans Village

As per Lennie Moore's statement below, I am sorely and entirely against any 'time extension' on this project being forced upon the residences of our neighborhood. Please reconsider the pushing-through of this misplaced project as it is not an area conducive to the benefit of not only the existing area residents but to potential residents of this project.

I thank you in advance for your reconsideration.

Best regards,

Maria Sisson
2285 W. Hearn Ave.

Subject: Re: My submission to the City Planning Commission regarding Hearn Veterans

Village

Hi Monet, Planning Commission, and City Council members,

I write regarding West Hearn Veterans Village, 2149 W Hearn Ave., Santa Rosa, CA and the Applicant's application to consider a one-year Time Extension at the June 27th Planning Commission meeting.

The residents of West Hearn Ave had many concerns regarding this project. Please refer to our previous submissions to the City on this. For now, I'd like to focus on a single issue:

Recent discovery shows that an adjacent property located at 2115 W Hearn Ave filed a survey of record ([SUR22-0067 - Corner Record](#)) which was approved by the County on 4/5/2022. This survey clarified one of the points on the eastern property line of the Applicant's Tentative Parcel Map was incorrect by 25-30 feet. Therefore, the Applicant does not have the submitted 3.01 acres to subdivide into four additional 1/2 acre parcels. They have less than the stated 3.01 acres and will need to resubmit revisions which comply with the updated boundaries of record.

We brought up this question (along with many other concerns) during previous Planning Commission and City Council hearings, and in our previous commentary regarding this Applicant.

This means several things for the Applicant and the City:

1. The Applicant cannot subdivide into their originally proposed four 1/2 acre parcels as they don't have enough land. The City will need to instruct the Applicant to reduce the subdivisions to only three parcels (along with reducing the number of proposed buildings) and re-design their project to comply with the zoning restrictions established for West Hearn Ave., which only allow for a minimum of 1/2 acre subdivisions.
2. The Applicant and the City relied on Google Maps for boundary data (as the City Planners stated in several of the previous hearings regarding this project. The lack of rigor in accurately assessing the boundaries (after West Hearn Ave residents expressed their concerns about this) is concerning.
3. Both the Applicant and the City rushed to push this project through without addressing the concerns of the residents of West Hearn Ave. The City's previous approvals should be given greater scrutiny at this point, as the optics of this are terrible.
4. If the Applicant (or any of the City Councilmembers who previously voted to approve this project) committed any malfeasance and/or negligence, then this will need to be investigated. There now exists a possibility of the City having some liability if this is the case.
5. In essence it seems as if the Applicant lied to the residents of West Hearn Ave, the Planning Commission, and to the City Council. If this was an error on the part of the

Applicant, it still looks bad for them as they did not do their due diligence (which was what many of our residents had requested in the first place).

Regarding point number 3, I would like to acknowledge Councilmembers Natalie Rogers (currently our Mayor) and Eddie Alvarez for listening to our concerns and voting no when this project came in front of the City Council before. My criticism of the City rushing a project through does not apply to them.

I ask the Planning Commission and the City Council to vote no on the Time Extension, review this survey, compare it to the proposed Tentative Parcel Map boundaries, and enter this survey into the record for this case. With this boundary clarification, it is not appropriate to give an extension for an inaccurate parcel map that is not based on reality.

Sincerely,

--

Lennie Moore

2215 West Hearn Ave., Santa Rosa, CA

Subject: [EXTERNAL] West Hearn Veterans Village, File No. EXT24-0004

Dear Monet and Planning Commission,

I write regarding West Hearn Veterans Village, 2149 W Hearn Ave., Santa Rosa, CA, regarding the June 27, 2024 Planning Commission meeting in which the Commission will consider a one-year time extension for the applicant, Community Housing Sonoma County, to record the Final Map by March 15, 2025 for the project.

I request that the Planning Commission ensure the following is included in the Final Map and Plans of this project:

A minimum 4 foot pathway for W. Hearn Avenue residents to Park Meadow Drive that meets the following standards:

1. ADA accessibility for wheelchairs to use the path
2. Accessible for bikes, strollers to use the path
3. Accessible for walkers to use the path

The plan as submitted appears to include the path but it is silent on the accessibility standards of the path. Accessibility of this pathway is critical to the residents of W. Hearn Avenue and the residents of the Village due to the conditions of W. Hearn

Avenue and the importance of all able and disabled residents of W. Hearn Ave. to access Park Meadow Drive.

W. Hearn Avenue is NOT an ADA accessible street, or a safe street for pedestrians generally:

1. There are no sidewalks.
2. There is one streetlight on the entire road.
3. The surface of W. Hearn is difficult to use a wheelchair, bike, stroller, walk because it is covered in potholes and rough transitions to the culvert/dirt edge of the road.
4. During the winter and rains, the culvert overflows and surface water limits the space on the road for a pedestrian, causing any pedestrians to push towards the center/middle of the road to travel. During the winter, there is no option to move off the road towards the edge to allow passing vehicles because it is either too muddy or is covered in standing water. This also creates an unsafe situation for pedestrians, particularly during dusk and evening travel.

The current fire road between W. Hearn Avenue to Park Meadow Drive is heavily accessed by residents from both areas to and from each road because of the conditions describe above. The access to Park Meadow Drive provides for access to the park, sidewalks for walking, the walking path near Santa Rosa creek, and the Route 15 Santa Rosa City Bus stop. There are families, children, and disabled residents on W. Hearn Avenue, including residents of Veterans Village.

Please ensure the continued and significantly safer and accessible access for W. Hearn Avenue residents to Park Meadow Drive. Without this, the City of Santa Rosa is allowing a project to move forward that does not meet the values and priority of equity in its policies and actions.

Furthermore, the sale and loss of this fire road and access to it was never transparent by the City or Community Housing, further frustrating and concerning the affected residents of W. Hearn Avenue.

Please see the attached photos that show the reality of W. Hearn Avenue in the winter and demonstrate the need.

Sincerely,

Christina Cramer

Monet,

On behalf of our client, Community Housing Sonoma County (CHSC), we are providing information in this email and attached to respond to the June 23, 2024 email from Lennie Moore below. Mr. Moore's email indicates that the Corner Record, Document SUR22-0067, filed with the County, suggests that the eastern boundary of the CHSC property is incorrectly plotted on the Hearn Veterans Village Tentative Map and that the property contains less acreage than reflected on the Tentative Map. As explained by BKF's Geoff Coleman below, the Corner Record data aligns with the property boundary information in the Tentative Map prepared by BKF. Based on this, we believe that the property boundary and lot size reflected on the Tentative Map is correct. We would appreciate you sharing this information with the Planning Commission and other interested parties, including the City Council which was copied on Mr. Moore's email.

Questions, please let us know.

Craig Meltzner

Subject: RE: [EXTERNAL] West Hearn Veterans Village Extension File No. EXT24-0004 - lot size ?

Craig,

I appreciate your time and it was a pleasure speaking with you this afternoon. I am including a brief summary regarding the boundary below that you might share with Monet and other City

staff.

A Tentative Map is a preliminary drawing reflecting the proposed configuration of a subdivision of real property along with the infrastructure (roads and utilities) serving the subdivision. State law does not require the boundaries shown on a Tentative Map to be precisely surveyed. However, it is generally a good idea to confirm the boundary geometry before planning a new development. Therefore, BKF Engineers performed fieldwork a few years ago when we were engaged to support your needs. We found field monumentation supporting the location of the east boundary line of lot 3 in Volkerts Homesites subdivision. This boundary line coincides with the location of the east boundary line shown in the applicant's Tentative Map which BKF prepared. A Corner Record was subsequently filed March 28, 2022 by another licensed professional who re-established the east boundary line of Lot 3 in Volkerts Homesites subdivision. When establishing this boundary line, the professional set ½" Rebar with a brass cap stamped Garner – LS 7347. The location of the line they established is consistent with the location of the line in both the map of Volkerts Homesites subdivision and the applicant's Tentative Map.

Attached are copies of the original subdivision map, tentative map and corner record. The north boundary of lots 1, 2 & 3 of Volkerts Homesites subdivision is shown as $140.24 + 141.11 + 134.52 = 415.87\text{ft}$. The dimension along the north boundary of the tentative map is shown as 416ft, consistent with the map of Volkerts Homesites subdivision, keeping in mind that distances have been rounded to the nearest foot on the tentative map, because the boundary shown on a tentative map is not required to be precisely shown. The dimension of the north line reflected in the Corner Record is also consistent with the map of Volkerts Homesites subdivision, as may be observed by the dimensions on both documents.

Please let us know if you have any other questions.

Thank you,

Geoff Coleman

Hi Monet, Planning Commission, and City Councilmembers,

I write regarding West Hearn Veterans Village, 2149 W Hearn Ave., Santa Rosa, CA and the Applicant's application to consider a one-year Time Extension at the June 27th Planning Commission meeting.

The residents of West Hearn Ave had many concerns regarding this project. Please refer to our previous submissions to the City on this. For now, I'd like to focus on a single issue:

Recent discovery shows that an adjacent property located at 2115 W Hearn Ave filed a survey of record ([SUR22-0067 - Corner Record](#)) which was approved by the County on 4/5/2022. This survey clarified one of the points on the eastern property line of the Applicant's Tentative Parcel Map was incorrect by 25-30 feet. Therefore, the Applicant does not have the submitted 3.01 acres to subdivide into four additional 1/2 acre parcels. They have less than the stated 3.01 acres and will need to resubmit revisions which comply with the updated boundaries of record.

We brought up this question (along with many other concerns) during previous Planning Commission and City Council hearings, and in our previous commentary regarding this Applicant.

This means several things for the Applicant and the City:

1. The Applicant cannot subdivide into their originally proposed four 1/2 acre parcels as they don't have enough land. The City will need to instruct the Applicant to reduce the subdivisions to only three parcels (along with reducing the number of proposed buildings) and re-design their project to comply with the zoning restrictions established for West Hearn Ave., which only allow for a minimum of 1/2 acre subdivisions.
2. The Applicant and the City relied on Google Maps for boundary data (as the City Planners stated in several of the previous hearings regarding this project. The lack of rigor in accurately assessing the boundaries (after West Hearn Ave residents expressed their concerns about this) is concerning.
3. Both the Applicant and the City rushed to push this project through without addressing the concerns of the residents of West Hearn Ave. The City's previous approvals should be given greater scrutiny at this point, as the optics of this are terrible.
4. If the Applicant (or any of the City Councilmembers who previously voted to approve this project) committed any malfeasance and/or negligence, then this will need to be investigated. There now exists a possibility of the City having some liability if this is the case.

5. In essence it seems as if the Applicant lied to the residents of West Hearn Ave, the Planning Commission, and to the City Council. If this was an error on the part of the Applicant, it still looks bad for them as they did not do their due diligence (which was what many of our residents had requested in the first place).

Regarding point number 3, I would like to acknowledge Councilmembers Natalie Rogers (currently our Mayor) and Eddie Alvarez for listening to our concerns and voting no when this project came in front of the City Council before. My criticism of the City rushing a project through does not apply to them.

I ask the Planning Commission and the City Council to vote no on the Time Extension, review this survey, compare it to the proposed Tentative Parcel Map boundaries, and enter this survey into the record for this case. With this boundary clarification, it is not appropriate to give an extension for an inaccurate parcel map that is not based on reality.

Sincerely,

--

Lennie Moore

Good morning, Brenda,

Thank you for your email and for sharing your comments and concerns. I will provide your email to the Planning Commission, along with other public comments that have been received, and they will be made available to the public.

Have a great day,

Monet Sheikhali | Senior Planner

Subject: [EXTERNAL] West Hearn Ave Veterans Village Extension File No. EXT24-0004

Good evening Monet, Planning Commission and City Council members, I am writing in regards to the West Hearn Ave Veterans Village at 2149 W. Hearn Ave., Santa Rosa and the Applicants application to consider a one year Time Extension at the June 27th Planning Commission meeting.

My neighbor Lennie Moore has pretty much summed up all of the neighborhood concerns about this project in his email to all of you so I won't go into the details as he has but I am urging you to VOTE NO on the applicants time extension application, my husband is a Purple Heart Vietnam Veteran and we respect all of our Veterans, we are more than happy to share our neighborhood with the residents who currently live at the Hearn House now but this project is not appropriate for our "Heritage" neighborhood that was designated by the city of Santa Rosa in 2017 when we were integrated from the county to the city.

Thank you,
Brenda Fowler-Hart
2280 W. Hearn Ave, Santa Rosa.

Thank you, Lennie,

I will share this with the Planning Commission and will have a City Engineer at the meeting tomorrow to answer questions.

Have a great day,

Thanks, Monet.

Here's a digital copy of the Corner Record (SUR22-0067) for the Planning Commission and City Council to review.

Somebody has some explaining to do!

Subject: [EXTERNAL] West Hearn Veterans Village Extension File No. EXT24-0004

Hi Monet, Planning Commission, and City Councilmembers,

I write regarding West Hearn Veterans Village, 2149 W Hearn Ave., Santa Rosa, CA and the Applicant's application to consider a one-year Time Extension at the June 27th Planning Commission meeting.

The residents of West Hearn Ave had many concerns regarding this project. Please refer to our previous submissions to the City on this. For now, I'd like to focus on a single issue:

Recent discovery shows that an adjacent property located at 2115 W Hearn Ave filed a survey of record ([SUR22-0067 - Corner Record](#)) which was approved by the County on 4/5/2022. This survey clarified one of the points on the eastern property line of the Applicant's Tentative Parcel Map was incorrect by 25-30 feet. Therefore, the Applicant does not have the submitted 3.01 acres to subdivide into four additional 1/2 acre parcels. They have less than the stated 3.01 acres and will need to resubmit revisions which comply with the updated boundaries of record.

We brought up this question (along with many other concerns) during previous Planning Commission and City Council hearings, and in our previous commentary regarding this Applicant.

This means several things for the Applicant and the City:

1. The Applicant cannot subdivide into their originally proposed four 1/2 acre parcels as they don't have enough land. The City will need to instruct the Applicant to reduce the subdivisions to only three parcels (along with reducing the number of proposed buildings) and re-design their project to comply with the zoning restrictions established for West Hearn Ave., which only allow for a minimum of 1/2 acre subdivisions.
2. The Applicant and the City relied on Google Maps for boundary data (as the City Planners stated in several of the previous hearings regarding this project. The lack of rigor in accurately assessing the boundaries (after West Hearn Ave residents expressed their concerns about this) is concerning.
3. Both the Applicant and the City rushed to push this project through without addressing the concerns of the residents of West Hearn Ave. The City's previous approvals should be given greater scrutiny at this point, as the optics of this are terrible.
4. If the Applicant (or any of the City Councilmembers who previously voted to approve this project) committed any malfeasance and/or negligence, then this will need to be

investigated. There now exists a possibility of the City having some liability if this is the case.
5. In essence it seems as if the Applicant lied to the residents of West Hearn Ave, the Planning Commission, and to the City Council. If this was an error on the part of the Applicant, it still looks bad for them as they did not do their due diligence (which was what many of our residents had requested in the first place).

Regarding point number 3, I would like to acknowledge Councilmembers Natalie Rogers (currently our Mayor) and Eddie Alvarez for listening to our concerns and voting no when this project came in front of the City Council before. My criticism of the City rushing a project through does not apply to them.

I ask the Planning Commission and the City Council to vote no on the Time Extension, review this survey, compare it to the proposed Tentative Parcel Map boundaries, and enter this survey into the record for this case. With this boundary clarification, it is not appropriate to give an extension for a inaccurate parcel map that is not based on reality.

Sincerely,

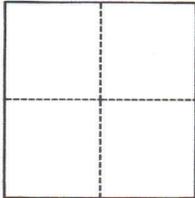

--

Lennie Moore
