Dear Mr. Osburn,

Please accept this email as a formal submission of my objection to the City of Santa Rosa establishing an Enhanced Infrastructure Financing District and the subsequent Enhanced Infrastructure Financing Plan for the Downtown Business Corridor and my property at 121 Seventh St in the North Railroad Square neighborhood. The City's proposal of a six story apartment building at 700 Wilson Street, ruining the skyline and quality of life for all of the adjacent historic single family homes is enough to destroy the quality of the area and the value of those same homes, we don't need another HUGE tax. As a property owner, I am objecting to it all.
