Date: 1/5/26

The Santa Rosa Police Department was made aware of an application for Public Convenience or Necessity (PCN) through the City's Department of Planning and Economic Development. The Public Convenience or Necessity review was requested for the two businesses. One located at 3230 Coffey Lane and one at 501 4th Street. At this time, the Police Department has no objection to the Public Convenience & Necessity (PCN) application for these two businesses.

If the Public Convenience & Necessity (PCN) application for these two businesses were approved, the Police Department recommends that the businesses have appropriate security measures in place to address issues in and around the establishment. These security measures may include personnel, cameras and appropriate lighting.
