

Rec'd at Meeting 11/14/2023  
Item No. 14  
From: Thomas Els

I am poor, & weak, & unable to resist any one of you, let alone stand here before all you. I am with you, and I beg in solidarity with you, for the benefit of all.

I pray, I beseech, I cry that you listen & hear. Our Services call to pray; For the Peace of the whole World, for the good estate of the Holy Churches of God, let us pray to the Lord. For the President of the United States and for all Civil Authority, let us pray to the Lord. Sanctify our souls, make chaste our bodies, correct our thoughts, & purify our intentions.

15-7 If there be among you a poor man of one of thy brethren within any of thy gates in thy land which the LORD thy God giveth thee, thou shalt not harden thine heart, nor shut thine hand from thy poor brother:

15-8 But thou shalt open thine hand wide unto him, and shalt surely lend him sufficient for his need, in that which he wanteth.

15-9 Beware that there be not a thought in thy wicked heart, --- and thou givest him nought; and he cry unto the LORD against thee, and it be sin unto thee.

15-11 For the poor shall [always be with you] ~~never cease out of the land~~: therefore I command thee, saying, Thou shalt open thine hand wide unto thy brother, to thy poor, and to thy needy, in thy land.

15-14 Thou shalt furnish him liberally out of thy flock, out of thy floor, and out of thy wine-press: of that wherewith the LORD thy God hath blessed thee thou shalt give unto him.

Roseland represents a small GAZA, in like fashion, Hearn Ave. overcrossing represents the gates and the Freeways are the walls surrounding GAZA. As you limit the opening of the gates, you limit the people of Roseland like Israel limits GAZA. And they will respond like little HAMAS.

To be clear about the correlation, We Christians are the Kingdom of Israel, the Kingdom of God; there is no true land of Israel for their hardheartedness.

This judgment will be upon us all.

Psalm 82/81

*"God hath stood in the congregation of gods: in the midst of them he judgeth among gods. - How long will you judge unjustly: and accept the persons of the wicked? Judge for the needy and fatherless: do justice to the humble & the poor.*

*Rescue the poor; and deliver the needy out of the hand of the sinner.*

*They have not known nor understood: they walk on in darkness: the foundations of the earth shall be moved.*

*I have said: You are gods and all of you, the sons of the most High.*

*But like men shall ye die: and like one of the rulers do ye fall.*

*Arise, O God, judge the earth: for thou shalt have inheritance among all nations".*

They will blame establishments, all establishments, and utter chaos will ensue. Does this thought remind you of Gaza. Palestine and Israel ?, it should ! It's just a question of degrees.

What you are doing is Trumpian, Putinesk, .. just because you have a reason, does not make it right... Everybody has a reason, Trump's reason to molest those women, didn't make it right.

Mao and Stalin believed to preserve their States they needed to kill millions of their people.

Hitler killed millions of Jews, in his name were killed millions of non-Jews, even in Brazil & Argentina.

We killed millions in Iraq, Afghanistan, & Syria, we said they had weapons of mass destruction.

And Collin Powell was given bad information from Tony Blair, extending their evil Confirmation Bias of the Middle East.

Your Authority does not give you the authority to choose randomly, it gives you the responsibility to choose rightly, that is, by the light.

(Blackman and Trump, and others choose from a bad set of choices, literally moving into the chaos.) And the Engineer, literally, Inspired or Anointed One, is supposed to present you with Inspired choices from which to choose.

I know what it is, to be unfairly treated, prejudiced against, persecuted, humiliated, falsely accused, mocked, beaten and spit upon, everything but crucified.

I was exalted, then humbled & troubled, and brought to distress. And yet I rose, as a High Energy Nuclear Physicist, and I was given all power to destroy humankind or to save it. I chose to save it, because when they said 'we give everything we discover to the Soviets', I left Physics immediately, as this was the height of Nuclear Proliferation. But not everyone is capable of overcoming prejudice and chaos to the degree that you or I have experienced, and this chaos leads those others to mass murder.

I have faced Chaos and the Anti-Christ, he looks like you and me, he was in the Reagan Administration setting tax and economic policies that gutted everything, he was junk bond counsel to Orange County, Ivan Boesky and Michael Milken, he left and went to Congress and fed the 4000 & 5000 earmarks to the Republican Contractors to take back Congress for Newt, he told President Bush it was our policy to go back to Iraq, and he was the SEC Chairman in 2008, the Forest Gump of Anti-Christ...

I can see clearly the abyss, it is terrible, nearby and larger than ever, it is present here.

When you fight for principled vision, some compromise gets you hogwash, from others you get the seeds for Inspiration ! Where the Shining Light comes from...

# Cell Tower Companies Warn Shareholders of Risk From Cell Tower Radiation

Why Don't They Warn Families Living Near Cell Towers?

Item No. 14

From: Mary Dahl

## Verizon 10-K Report

"Our wireless business also faces personal injury and wrongful death lawsuits relating to alleged health effects of wireless phones or radio frequency transmitters. We may incur significant expenses in defending these lawsuits. In addition, we may be required to pay significant awards or settlements."

## Crown Castle 10-K Report

"We cannot guarantee that claims relating to radio frequency emissions will not arise in the future or that the results of such studies will not be adverse to us...If a connection between radio frequency emissions and possible negative health effects were established, our operations, costs, or revenues may be materially and adversely affected. We currently do not maintain any significant insurance with respect to these matters."

## AT&T 10-K Report

"In the wireless area, we also face current and potential litigation relating to alleged adverse health effects on customers or employees who use such technologies including, for example, wireless devices. We may incur significant expenses defending such suits or government charges and may be required to pay amounts or otherwise change our operations in ways that could materially adversely affect our operations or financial results."

## T-MOBILE 10-K Report

"Our business could be adversely affected by findings of product liability for health or safety risks from wireless devices and transmission equipment, as well as by changes to regulations or radio frequency emission standards."

Re: CITIZEN PETITION AND REQUEST FOR LEGAL COMPLIANCE

**Letter to the FDA (Food and Drug Administration) regarding the Citizen's  
Petition from Americans for Responsible Technology**

Dear FDA official,

Please wake up and help the dear people of our beautiful USA. We the people are being exposed to the extremely harmful effects of many thousands of telecom small cells and cell towers all over our country as well as the hundreds of devices and products that use this infrastructure.

Most people have no idea that their routers, wireless computers, cell phones, and many smart devices (including smart meters) are harming them. Some of us are aware, and do not use these wireless products but we are still being harmed when there are cell towers and small cells in close proximity to where we live. The invasive and poisoning waves of radiofrequency radiation RFR are spreading throughout our neighborhoods and into our homes.

Hundreds of thousands of people have become very sick with tumors and cancers. They are also experiencing other very debilitating conditions such as insomnia, migraines, exhaustion, dizziness, nausea, heart palpitations, and more. Where are the studies showing no harm? Isn't it the job of the FDA to protect us from these dangerous products and the infrastructure that is ruining our health?

I personally know about these harmful effects because I am one of those people who have become very sick. Over five years ago, when our Santa Rosa City Council and zoning department was approached by the telecom companies to put up their cell towers and small cells, our local government unknowingly took their word that there were no harmful effects. They signed the permits and then whamo! Telecom got their foot in the door and started to take over.

In 2018, a Verizon small cell array was installed on a utility pole just 42 feet from my home. I knew nothing about it until I got a notice telling me that this was going up on said pole. Shortly after the antennas were turned on, I began to experience the debilitating conditions described above. Not even my doctors knew what I had. I was lucky as a dear friend asked me six months later if I thought my conditions were from the small cell next to my house. I thought, "That's it" because I started getting sick right after the antennas were turned on.

I fought it no end. I wrote many letters and made phone calls. I have copies of my correspondence and wrote down the info from all the phone calls. I am still fighting five and a half years later and will continue on until I draw my last breath.

I don't have wifi, don't own a computer or a cell phone and have no "smart" devices except for a smart meter that was forced upon me by Pacific Gas and Electric. The smart meter is now shielded. A year ago, I was given a radiofrequency radiation meter (Safe and Sound Pro 2) from a friend and have taken many hundreds of RFR readings throughout my house and yard. I can only live in several rooms now, and even those are getting to be higher according to my meter. The S&S Pro 2 measures in  $\mu\text{W}/\text{m}^2$  (microwatts per meter squared). Building biologists say that anything over 1,000  $\mu\text{W}/\text{m}^2$  is "extreme concern" meaning that people should never be exposed to these high levels long term.

In my house, rooms measure from 5,000  $\mu\text{W}/\text{m}^2$  to 30,000  $\mu\text{W}/\text{m}^2$ , and in my yard, RFR ranges from 25,000  $\mu\text{W}/\text{m}^2$  to 195,000  $\mu\text{W}/\text{m}^2$ . My life has changed forever... not of my choice. I am homebound. But when I go out, I am so reactive to RFR that I can't be in the vicinity of cell phones or even in certain waiting rooms at doctor's offices. I don't drive, so I ask friends to turn off their phones when they give me rides. I react when passing cell towers while we are on the road. It is very hard to even go shopping or to appointments. I also can't attend my beloved church or go to social activities. The only remedy is avoidance of anything emitting RFR, which I can't even do in my home that I've lived in for 52 years.

I was finally diagnosed in April 2022 with ADA, EHS, electromagnetic hypersensitivity, by a well respected medical doctor. I will have to live with this disabling condition until I die.

What gave our local governments and our federal agencies the right to be the judge and jury, convicting me to a sentence of suffering and taking away my enjoyment of life? They have done this to everyone who's suffering the terrible effects of RFR and continue to do so. When will it stop?

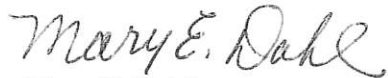

The FDA must take some action and control this takeover. I am told there are thousands of carefully researched studies showing the dangers to humans and other forms of life. We need to protect the people of all ages.

Telecom can no longer use their financial influence over your agency. You must address this matter head on by setting realistic exposure guidelines and issuing

warnings so people know how to protect themselves from small cells, cell towers, and wireless devices. If you are not willing to take action against the powerful telecom industry and issue strong warnings on wireless devices (like you do on cigarettes packages), step aside and let in a group who can do the job completely.

We must stop this horrible invasion before it's too late.

Sincerely,

A handwritten signature in cursive script that reads "Mary E. Dahl".

Mary E. Dahl

*Since I have been diagnosed with EHS, Electrohypersensitivity, and am highly allergic to all electronic devices that emit EMF and radiofrequency radiation, Sidnee Cox from <https://safetech4santarosa.org> has graciously offered to type this for me. I do not use a computer.*
