## Findings for 2004 Denial

**Finding 1:** The proposed use would not be consistent with General Plan Policy LUL-E, which is to “Promote livable neighborhoods.”

**Finding 2:** The rear of the convenience market is adjacent to a dead-end street, which creates a unique problem with regard to alcohol use and potential loitering.

**Finding 3:** There is a significant transient population in the area with a history of problems as described by those who spoke at the Planning Commission meeting.

## Findings for 2004 Denial (Cont'd)

**Finding 4:** Alcohol is currently available for sale at various locations near the project site as outlined in the diagram presented at the meeting.

**Finding 5:** The proposed use is not appropriate at the time due to lack of compatibility with the surrounding neighborhood, the lack of harmonious integrations with the neighborhood, and the potential for a nuisance.

**Finding 6:** The proposed use is not appropriate at this time because it will not serve the public health, safety, and welfare.
