ANALYSIS

In the most recent contract negotiation, Santa Rosa City School District would pay the City of Santa Rosa \$27,203 in exchange for providing summer programming for youth. These programs will be provided through the Neighborhood Services section of the Recreation and Parks Department as part of the City's Violence Prevention efforts. The Service Agreement currently includes a one-way indemnification provision under which the City indemnifies the District. The City has requested that the District consider mutual indemnification, as is customary for agreements between public agencies. Staff is requesting Council approval here, even with the one-way indemnification; staff believes the risks associated with that provision as currently drafted are outweighed by the benefits of this significant expansion of the City's service delivery through a new and exciting partnership with the District.

The Recreation and Parks Department maintains JL Key 001882-1260 'Change For Kids' to manage revenues dedicated to youth services provided through the Neighborhood Services Section. These funds will be utilized to provide Santa Rosa youth access to high quality Recreation programs.
